

Hello Sir/Mam,

I won't take your much time, here is the list what I can do for you: -

1. I am **Front End Developer** at [Earfields](#)(real-estate product-based company) from past 1 year.
2. I had done **Open-Source** Contribution at [MaterialUI](#)(which shows my understanding large codebase).
3. I have made several problem-solving projects which can showcase my skills.
4. I knew **ReactJS, Typescript, NextJS, TailwindCSS, HTML, CSS, React Native**
5. For Databases I knew **MongoDB, PostgreSQL**.
6. Cloud Platform I used **GCP, AWS**.
7. For GenAI I used **Gemini API, OpenAI** in my personal project i.e. [TravelGinne](#)

Basically, I have all the skills required for this role, if any new tech is needed then I can assure you within a day I will be ready to contribute to a live project.
